**Proposed Amendment of Class D and E Airspace and Revocation of Class E Airspace;  
Fayetteville, AR**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to amend Class D airspace and Class E airspace designated as a surface area, and remove Class E airspace designated as an extension to a Class D and Class E airspace at Drake Field, Fayetteville, AR. The FAA is proposing this action as the result of an airspace review caused by the decommissioning of the Drake VHF omnidirectional range (VOR) navigation aid, which provided navigation information for the instrument procedures at this airport, as part of the VOR Minimum Operational Network (MON) Program. The geographic coordinates of the airport would also be updated to coincide with the FAA's aeronautical database.

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I,

Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D airspace and Class E airspace designated as a surface area, and remove Class E airspace designated as an extension to a Class D and Class E airspace at Drake Field, Fayetteville, AR, to support instrument flight rule operations at the airport.

### **Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2018-0699/Airspace Docket No. 18-ASW-11." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

### **Availability and Summary of Documents for Incorporation by Reference**

This document proposes to amend FAA Order 7400.11C, Airspace Designations and Reporting Points, dated August 13, 2018, and effective September 15, 2018. FAA Order 7400.11C is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11C lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### **The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by:

Amending the Class D airspace at Drake Field, Fayetteville, AR, to within a 4.0-mile radius (decreased from a 4.1-mile radius); and adding an extension 1.1 miles each side of the 181° bearing from the airport from the 4.0-mile radius to 5.9 miles north of the airport, and adding an extension 1.0 mile each side of the 172° bearing from the Drake Field: RWY 34-LOC from the 4.0-mile radius to 4.9 miles south of the Drake Field: RWY 34-LOC; and adding an extension

1.0 mile each side of the 347° bearing from the airport from the 4.0-mile radius to 4.9 miles north the airport. The city associated with the airport would be removed from the airspace legal description to comply with a change to FAA Order 7400.2L, Procedures for Handling Airspace Matters, and the outdated term “Airport/Facility Directory” would be updated to “Chart Supplement.” Additionally, the geographic coordinates of the airport would be updated to coincide with the FAA’s aeronautical database.

Amending the Class E airspace designated as a surface area at Drake Field to within a 4.0-mile radius (decreased from a 4.1-mile radius); and extending the airspace up to and including 3,800 feet MSL; and adding an extension 1.1 miles each side of the 181° bearing from the airport from the 4.0-mile radius to 5.9 miles south of the airport, and adding an extension 1.0 mile each side of the 172° bearing from the Drake Field: RWY 34-LOC from the 4.0-mile radius to 4.9 miles south of the Drake Field: RWY 34-LOC; and adding an extension 1.0 mile each side of the 347° bearing from the airport from the 4.0-mile radius to 4.9 miles north of the airport. The city associated with the airport would be removed from the airspace legal description to comply with a change to FAA Order 7400.2L, Procedures for Handling Airspace Matters, and the outdated term “Airport/Facility Directory” would be updated to “Chart Supplement.” Additionally, the geographic coordinates of the airport would be updated to coincide with the FAA’s aeronautical database.

And removing the Class E airspace designated as an extension to Class D and Class E at Drake Field as it is no longer required.

This action as the result of an airspace review caused by the decommissioning of the Drake VOR, which provided navigation information for the instrument procedures at this airport, as part of the VOR MON Program.

Class D and E airspace designations are published in paragraph 5000, 6002, and 6004, respectively, of FAA Order 7400.11C, dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

### **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
